DUBAI, UAE · GLOBAL

ABOUT US

One Agency.
Every Dimension.

MDA — Master Digital Agency is a full-service commercial agency operating in Dubai and the UAE. We build, design, produce, automate, and deliver — across Digital, Creative, Media, and Business Solutions.

Backed by the infrastructure, talent, and technology of DREXONYX, MDA brings enterprise-grade capability to businesses at every stage — from first website to full digital operation.

We are not a freelancer marketplace or a template shop. Every project is strategically scoped, professionally executed, and supported from launch day and beyond.

POWERED BY DREXONYX

MDA operates under the DREXONYX brand umbrella — a Dubai-based creative and technology studio. DREXONYX provides the engineering systems, creative infrastructure, and operational backbone that powers every MDA engagement.

- Corporate Profiles & Brochures
- Presentations & Catalogues
- Marketing & Social Media Design

03 · MEDIA

Media Production

Video · Cinematic · Photography · Content

- Video & Cinematic Production
- Product Photography
- Social Media Content Creation
- Editing & Post-Production

04 · SOLUTIONS

Business Solutions

Workflows · Forms · Automation · Systems

- Digital Workflows & Automation
- Electronic Forms & Systems
- Online Business Platforms
- Commercial Tools & Solutions

More than services. Complete solutions.

MDA engagements are scoped, designed, and delivered as complete projects — not piecemeal tasks. Every brief receives a named project lead, a defined timeline, and a clear deliverable standard.

INDUSTRIES SERVED

Built for UAE Business.

MDA serves established and growing businesses across the commercial sectors that define the UAE economy. Our solutions are built around the real operational context of each industry — not generic templates.

01
Construction & Contracting
Project portfolios, RFQ systems, sub-contractor portals

02
Cleaning & Facility Mgmt
Quote forms, service listings, client-facing booking

03
Hospitality & Hotels
Booking integrations, room showcases, reputation management

04
Food & Beverage
Menus, reservations, loyalty pages, social content

05
Healthcare & Medical
Clinic websites, appointment forms, compliance-aware design

06
Real Estate
Property listings, lead capture, agent microsites

07
Retail & E-Commerce
Online stores, product pages, checkout optimisation

08
Professional Services
Corporate profiles, consulting pages, digital workflows

09
Manpower & Labour
Inquiry systems, worker profiles, HR-facing platforms

10
Health & Fitness
Class schedules, membership pages, trainer profiles

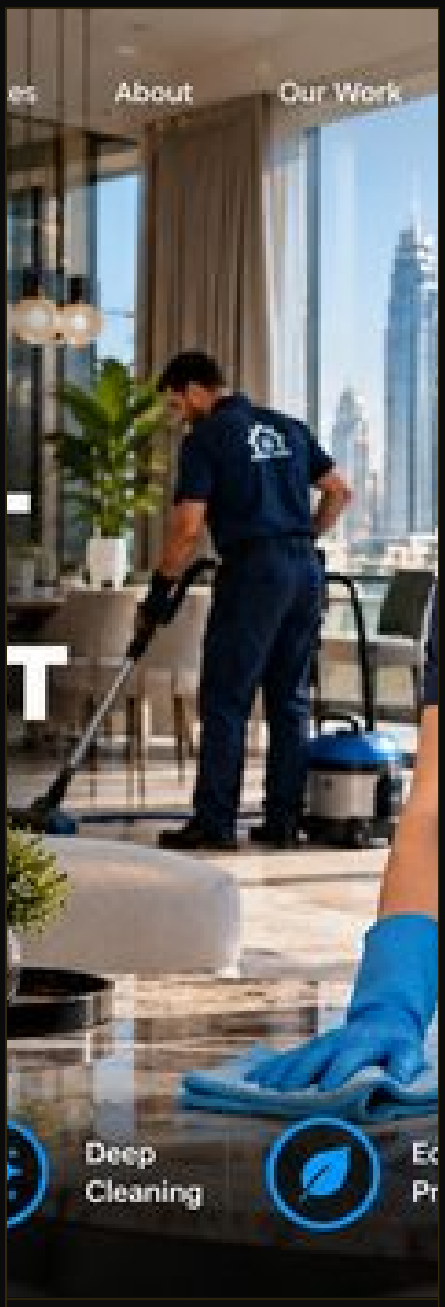

11
Automotive
Showroom sites, inventory, service appointment booking

12
Technology & SaaS
Product pages, demo flows, onboarding experiences

WEBSITE DEMONSTRATIONS

See the Standard Live.

The following are illustrative demonstration websites — live, functional builds created to show the quality and capability of MDA's digital output. Each demonstrates production-level design and real-world functionality.

ILLUSTRATIVE DEMO

Cleaning & FM Services

Service catalogue, online quote form, responsive mobile-first layout.

drexonyx.studio/demos/cleaning

ILLUSTRATIVE DEMO

Healthcare & Dental Clinic

Clinic website, appointment booking, patient-friendly UX design.

PROJECT DETAILS

Delivery	*8–12 weeks*
Revisions	*Unlimited rounds*
Handover	*Brand guide + full docs*

BEST FOR

Established businesses requiring a full custom build, brand identity, and a year of dedicated support.

Fixed Price, Always

Every scope is quoted fixed before work begins. No retainers, no escalating fees, no surprises at invoice.

48-Hour Quote Response

Submit your brief and receive a fixed price and timeline within two business days — no sales call required.

Full Ownership at Close

Complete file delivery and documentation at every project close. You own everything we build.

All packages include a professional build with mobile-responsive layout and a standards-compliant codebase. Prices are fixed — no hidden fees, no escalating retainers. Custom scopes available on request.

PROJECT WORKFLOW

From Brief to Delivered.

Every MDA project follows a disciplined four-stage process — designed to reduce client effort, eliminate ambiguity, and produce work that performs from day one.

We don't start building until the brief is clear. We don't deliver until the work meets standard. At every stage, you have a named contact and a defined next step.

DISCOVER — DESIGN — BUILD — DELIVER

01 DISCOVER

Goals & Strategy

We map your business goals, target market, and commercial opportunity in a structured discovery session. The outcome is a written brief that defines deliverables, confirms audience, and locks the project timeline. Nothing moves to design until the brief is finalised and signed — removing the ambiguity that derails most agency-client relationships before they begin.

- Business brief & scope
- Competitor analysis
- Fixed project timeline
- Target audience map
- Success criteria

02 DESIGN

Visual & UX

Every touchpoint is crafted specifically for your brand — visual identity, UX wireframes, and messaging aligned to your audience and sector. We present three design directions before any build begins. Nothing proceeds to development without your written approval — the gate is hard, not negotiable, and protects your budget from rework.

- Wireframes & layouts
- Visual identity assets
- Client approval gate
- UX flow diagrams
- Brand guidelines

03 BUILD

Execution

We execute across all disciplines simultaneously — frontend development, content setup, production, and media creation delivered on brief and on schedule. Parallel execution shortens project durations without quality trade-offs. Weekly status updates keep you informed at every stage without requiring hands-on involvement from your side.

- Frontend development
- CMS & content setup
- QA & testing
- Cross-browser validation
- Production sign-off

04 DELIVER

Launch & Support

We manage the full go-live — DNS, hosting configuration, and deployment to your confirmed infrastructure. On launch day you receive the complete codebase, all creative assets, and a written handover brief. Every MDA project includes 30 days of post-launch support as standard; ongoing maintenance tiers are available for clients requiring regular updates beyond that window.

- Full codebase handover
- DNS & hosting setup
- 30-day post-launch support
- Admin access & training
- Post-launch review

WHY DREXONYX × MDA

The Case for MDA.

The UAE market has no shortage of agencies. What it lacks is one that combines genuine technical depth, commercial pricing, and a reliable delivery standard — without requiring an enterprise budget.

Enterprise Infrastructure at Commercial Rates

MDA is powered by DREXONYX — a technology and creative studio with production infrastructure, AI systems, and engineering capability typically reserved for enterprise clients. You get that backbone at package pricing.

Four Disciplines. One Relationship.

Digital, Creative, Media, and Business Solutions — all under one agency. No vendor management, no brief-by-brief contractor juggling. One point of contact. One standard across every deliverable.

Fixed Scope. Fixed Price. No Drift.

Every engagement is scoped upfront with defined deliverables, timelines, and a single fixed price. There are no retainer traps, scope-creep invoices, or ambiguous hourly billing.

Support That Outlasts the Launch

Every MDA package includes post-launch maintenance. The Professional and Premium tiers provide ongoing rounds of updates — so the work you receive stays live, current, and functional as your business evolves.

Built for UAE Business Reality

MDA is designed for the industries, clients, and commercial context of the UAE — not adapted from a Western template. Our demos, packages, and workflows reflect how business actually works here.

Speed Without Compromise

MDA's production infrastructure enables rapid turnaround without sacrificing output quality. Most projects move from signed scope to first deliverable within seven working days.

Deliverables, Not Promises

Every MDA project ends with a complete, handed-over deliverable — not an ongoing dependency on our tools. You own what we build, and we document it for continuity.

A DREXONYX BRAND

MDA is the client-facing agency brand of DREXONYX. Every project, regardless of package tier, is executed by the same team, to the same engineering and creative standard.

Results, Not Reports

We measure success against the original brief — not against activity metrics. Every project closes with live, working output deployed and confirmed against its stated objectives.

"Every client, every project, every deliverable — built to the same engineering and creative standard."

MDA — MASTER DIGITAL AGENCY

Digital. Creative. Media. Solutions.

ONE AGENCY. EVERY DIMENSION.

HOW TO START

01 Submit your brief at drexonyx.studio/start-project — a 5-minute form covering your goals, scope, and timeline.

02 We review your scope and respond with a fixed price and timeline within 48 hours — no sales call required.

03 Sign off on the scope and production begins — fixed price, defined deliverables, no ambiguity.

OUR COMMITMENT

Fixed deliverables, fixed price, on-time delivery — or we make it right.

You own everything we build — full handover with documentation at every close.

Post-launch maintenance included in Professional and Premium tiers.

From first website to full digital operation.
